Criterion 7

7.1.10 The Institution has a prescribed code of conduct for students, teachers, administrators and other staff and conducts periodic programmes in this regard

The institution follows a robust approach to ensure adherence to ethical standards and the code of conduct for students, teachers, administrators, and other staff. The key initiatives are as follows:

- 1. Code of Conduct Displayed on the Website:** The institution's code of conduct is publicly available on the official website, ensuring transparency and easy access for all stakeholders. This allows students, staff, and visitors to familiarize themselves with the institution's ethical standards and behavioral expectations.
- 2. Committee to Monitor Adherence:** A dedicated **Code of Conduct Committee** is established to ensure the proper implementation and monitoring of the prescribed code. This committee addresses any violations and ensures that all parties follow the outlined ethical guidelines, fostering a positive and respectful campus environment.
- 3. Professional Ethics Programs:** The institution organizes regular **professional ethics programs** for students, teachers, administrators, and staff. These programs are designed to promote understanding of professional ethics, integrity, and accountability within academic and administrative settings.
- 4. Annual Awareness Programs:** The institution conducts **annual awareness programs** to refresh the knowledge of the code of conduct, emphasizing its importance and the expected behavior. These sessions help in reinforcing ethical values and maintaining discipline on campus.

These measures collectively ensure that the institution maintains a disciplined, ethical, and professional environment for all its members.
